<b>Method-status:</b> G = GMP A = accredited V = generally validated P = validated on product N = not validated E = external lab		
<b>Remarks:</b> The sample(s) mentioned above have been analysed as they have been sent to us by the client. We have not controlled external processes like manufacturing, labelling, sampling, shipping, storage. These results are for information only and do not compensate for correct quality control by the manufacturer/distributor. Generally, pharmaceutical products have to be produced and distributed under full GMP/GDP regime, including GMP-compliant analyses with validated methods. This report cannot be used for commercial reasons incl. product release and/or quality control. It is not allowed to use this analysis in the context of doping/sports/competitions or any other illegal action, neither by the athlete nor by the tutor/trainer or any other person.		
<b>Signatures:</b> controlled & released: <i>ASig</i> Staff: <i>T.B. Gier</i>		<b>completed:</b> 03.04.2018
The enclosed results refer exclusively to the object of examination described above. The measuring accuracy is available on request. Only handwritten signatures are valid.		
Without written permission, it is not allowed to publish single parts of this report.
