Test report

Object of analysis:	Dragon Pharma - Sustanon 350	
Customer:	AnabolicLab.com	Samples: 1
Batch:	DPSUST-1705, Exp. 05/2020	Receipt: 25.02.2019
Subject:	Content, Identification, TAMC/TYMC (qual.)	
Method(s):	HPLC, Microbiology	Start of Analysis: 27.02.2019

Sample / Analysis:	Method	Status	Result	Specification	complies
<u>Testosterone Enanthate:</u>					
Identification	HPLC	N	complies	complies	yes
Content	HPLC	N	185 mg / mL	200 mg / mL	-
<u>Testosterone Cypionate:</u>					
Identification	HPLC	N	complies	complies	yes
Content	HPLC	N	101 mg / mL	100 mg / mL	-
<u>Testosterone Propionate:</u>					
Identification	HPLC	N	complies	complies	yes
Content	HPLC	N	52 mg / mL	50 mg / mL	-
TAMC	Microbiol.	N	not detectable/mL	-	-
TYMC	Microbiol.	N	not detectable/mL	-	-

Method-status: G = GMP A = accredited V = generally validated P = validated on product N = not validated
 E = external lab

Remarks: The sample(s) mentioned above have been analysed as they have been sent to us by the client. We have not controlled external processes like manufacturing, labelling, sampling, shipping, storage. These results are for information only and do not compensate for correct quality control by the manufacturer/distributor. This report cannot be used for commercial reasons incl. product release and/or quality control. It is not allowed to use this analysis in the context of doping/sports/competitions or any other illegal action, neither by the athlete nor by the tutor/trainer or any other person. Version 1: 27.03.2019; Version 2: Parameters corrected; as the ingredients were not listed on the vial, the most common composition for "Sustanon" was assumed and accordingly analysed; new results were calculated after we got the according information of the compounds of the manufacturer (as listed above). In this field, we generally analyse on specific compounds and do not perform general screenings in order to identify unknown/unexpected signals.

Signatures: controlled & released:  Staff:  **completed:** 03.09.2019
 The enclosed results refer exclusively to the object of examination described above. The measuring accuracy is available on request. Only handwritten signatures are valid.
