Test report

Number **C 57945**

Object of analysis: Trenbol 100 Genesis

Customer: AnabolicLab.com **Samples:** 1

Batch: RE 122SM **Receipt:** 23.06.2017

Subject: Content, Identification Trenbolone acetate

Method(s): HPLC, SOP M 006

Sample / Analysis:	Method	Status	Result	Specification	complies
<u>Trenbolone acetate:</u>					
Identification	HPLC	N	does not comply	complies	no
Content	HPLC	N	not detectable	100 mg/mL	-
TAMC	SOP M 006	N	< 1 KBE/mL	-	-
TYMC	SOP M 006	N	< 1 KBE/mL	-	-

Method-status: G = GMP A = accredited V = generally validated P = validated on product N = not validated
E = external lab

Remarks: The sample(s) mentioned above have been analysed as they have been sent to us by the client. We have not controlled external processes like manufacturing, labelling, sampling, shipping, storage. These results are for information only and do not compensate for correct quality control by the manufacturer/distributor. Generally, pharmaceutical products have to be produced and distributed under full GMP/GDP regime, including GMP-compliant analyses with validated methods. It is not allowed to use this analysis in the context of doping/sports/competitions or any other illegal action, neither by the athlete nor by the tutor/trainer or any other person.

Signatures: controlled & released:  Staff: 

The enclosed results refer exclusively to the object of examination described above.
The measuring accuracy is available on request. Only handwritten signatures are valid.
Without written permission, it is not allowed to publish single parts of this report.
