Test report Number C 60253							
Object of analysis:	SIS ORALS D	ianabol					
Customer:	AnabolicLab.c	AnabolicLab.com			Samples: 1		
Batch:	005-100510				Receipt: 14.08.2017		
Subject:	Content, Identification Methandienone						
Method(s):	HPLC, SOP M	HPLC, SOP M 006					
Sample / Analys	is:	Method	Status	Result	Specification	complies	
Methandienone:							
Identification Content		HPLC HPLC	N N	complies 9.39 mg/tablet	complies 10 mg / tab	yes -	
Method-status: G = GMP A = accreditated V = generally validated P = validated on product N = not validated E = external lab							
	he sample(s) mentioned above have been analysed as they have been sent to us by the client. /e have not controlled external processes like manufacturing, labelling, sampling, shipping, torage. These results are for information only and do not compensate for correct quality control y the manufacturer/distributor. Generally, pharmaceutical products have to be produced and istributed under full GMP/GDP regime, including GMP-compliant analyses with validated nethods. It is not allowed to use this analysis in the context of doping/sports/competitions or any ther illegal action, neither by the athlete nor by the tutor/trainer or any other person.
